Career Objective

Aspiring software developer with strong proficiency in web technologies, data structures and algorithms, and development tools. Seeking to contribute to impactful projects and grow in a dynamic and challenging environment.

Education

- **Galgotias University**, B.Tech in Computer Science and Engineering (2022–2026) — CGPA: 9.29
- **12th Grade**, Govt. N.N H/S Niranjanpur, BSEB (2020) — 85%
- **10th Grade**, St. Karen's High School, CBSE (2019) — 90%

Certifications

- **NPTEL Software Engineering (2024):** Elite Certificate

Technical and Soft Skills

- **Languages:** Java, SQL, HTML, CSS, JavaScript
- **Libraries:** React.js, Bootstrap, Tailwind CSS, Node.js, Express.js, Socket.io
- **Databases:** SQL
- **Developer Tools:** Git, GitHub, REST APIs, JWT, bcrypt
- **Soft Skills:** Communication, Teamwork, Time Management, Leadership, Problem-Solving

Projects

Real-Time Chat App

[GitHub](#) [Live Demo](#)

React.js, Zustand, Context API, Socket.io, Node.js, Express, MongoDB, Daisy UI, JWT

- Built a full-stack real-time chat application with authentication and socket-based communication.
- Utilized Zustand and Context API for state management and Socket.io for live messaging.
- Integrated secure user auth using JWT and bcrypt, with RESTful APIs for login, register, and user management.
- Enabled real-time conversation updates and online/offline status without page reloads.

Shopping Cart Project

[Live Demo](#)

React.js, Tailwind CSS

- Implemented real-time cart with quantity and price updates.
- Reduced component re-renders by 40% using React optimization techniques.

Study Notion

[GitHub](#)

React.js, Tailwind CSS

- Enhanced user engagement by 35% through intuitive UI/UX improvements.

Blog App – RESTful API

[GitHub](#)

Node.js, Express.js, MongoDB

- Designed and implemented RESTful API with CRUD operations and pagination.
- Handled over 10 dummy entries for testing and demonstration.

Auth App – Authentication System

[GitHub](#)

Node.js, Express.js, JWT, bcrypt

- Implemented secure authentication with JWT and password hashing.
